

COPYRIGHT AGREEMENT

(Return to the Department in addition to the description of the project and the Master's agreement)

A Master's thesis is a product of the student and the supervisor. Therefore, both have the right to be authors of articles based on this work. If no other agreements are made, and the student can and will take the main responsible for publishing, he/she shall have the right to do so.

If the student has not started working on the material for publishing within 6 months, or more than 12 months before submission, the supervisor has the right to take over the main responsibility for processing the material and publish it as first author (together with the student). If possible, the supervisor and the student should cooperate in this stage as well. If the supervisor takes over this responsibility in this way, the student has the right to be informed first.
