

# Cross Campus Learning

How to

# Qualities of On-campus Learning

- Being close to teaching staff
  - Quick response to questions
- Being part of a social group of students

# Streaming Lectures Alone is not Enough

- Teaching material is easy to distribute
- Learning activities are harder
- Hypothesis: Flipped classroom may fit well in a cross-campus mode:
  - Teaching material distributed up front
  - Students solves quizzes and exercises before lecture
  - Students work on exercises/project work on campus - preferably in groups - supervised by tutors

# Questions

- Should all our courses be adapted to cross-campus learning?
- Should we establish a common production infrastructure for flipped classrooms?
- How can we make homework motivating to the students?
