# RQ: What vs Why

## What

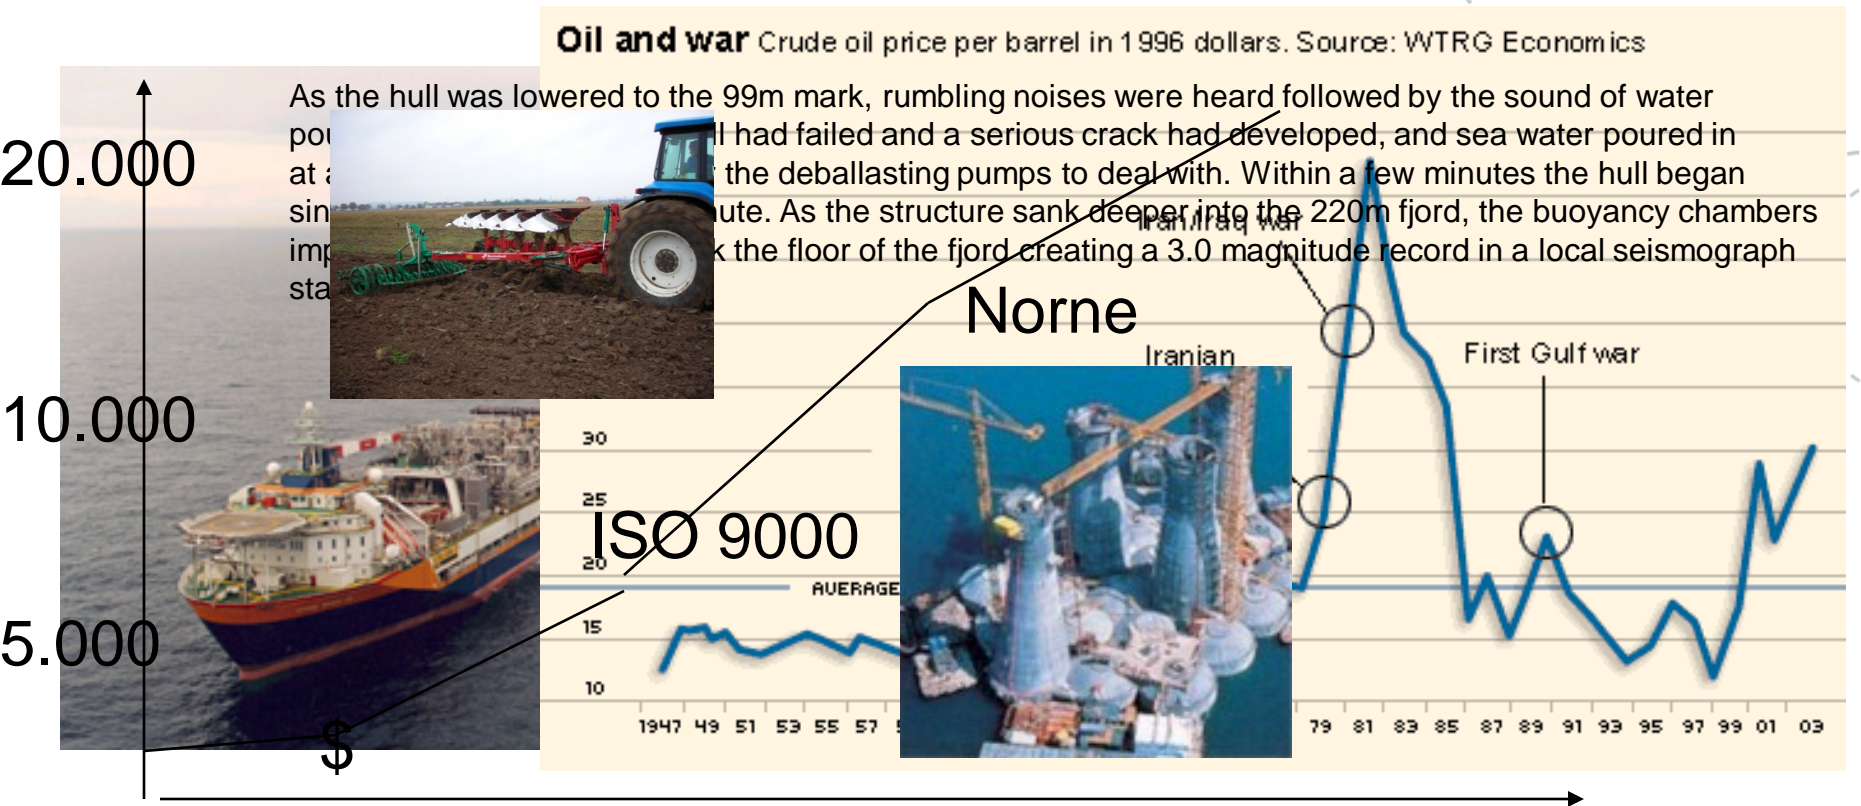

- Causality
- Explanations

## Why/ how

- Contextual
- Understanding

# Ex.: Lotus Notes Statoil (1992- )

1994

1996

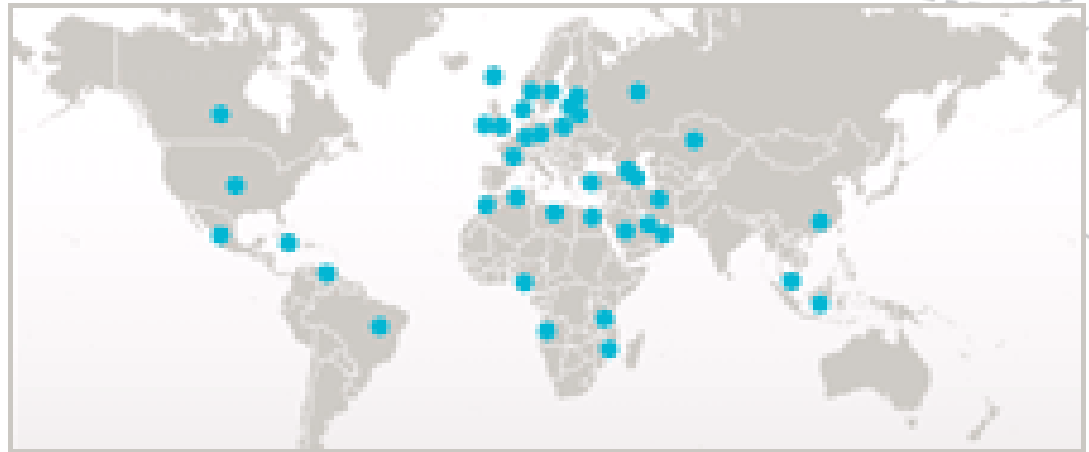

1998

**NTNU**

Det skapende universitet

# Method (1): part vs whole

- 25.000+
- 30+ countries
- N organ. units....
- N disciplines ...

# Method (2): Observation

- Participatory observation
- Legitimate **role** ("who are you?")
- Becoming "wall-paper"
- Hints for further navigation/ "**snow-balling**"

# Method (3): interviews

- General statements
  - What about **last** time?
  - Pick one instance – what about this?
- "Strategicaly dumb"
  - Triangulate with other sources
  - Keep out of it, refer to **others**

# Method (4): Multiple voices

- Multiplicity of accounts
  - Who to listen to?
- Different perspectives – so what is yours?
  - **Reasonable** interpretations.....
- Accounting (writing about) multiplicity
  - Eliminate **traces** in the text?
- Staging/ "validation"
  - **feed-back** sessions
